Quality Assurance
VideoSmart.

**VideoSmart.**

About VideoSmart

VideoSmart is a multi-award-winning video technology company, specialising in personalised and interactive videos.

Our client base includes some of the largest companies in the UK, all using VideoSmart's services to achieve a range of marketing and servicing objectives.

Our team is an eclectic mix of tech geeks, data gurus, connoisseurs in creativity and pragmatic project managers.

Our goal? To improve customer communications using the power of video. With the help of endless cups of Nespresso, unlimited stashes of biscuits and our beloved ping pong table, we are able to do just that.

We are looking for a **Quality Assurance** to join our Porto based team. In your role you will be working with our main service, making sure each video campaign meets our high standard quality control checks and it delivers all the requirements for all our clients, as well as, exciting and new applications our Project team might be working.

The Role

General Responsibilities.
- Writing and reviewing testing plans
- Meeting project deadlines
- Creating test plan automation procedures
- Report discovered defects to all relevant departments for correction

Requirements.
- 1+ years of commercial experience
- Ability to work methodically and meet deadlines
- Precise attention to detail
- You are organized
- You have a passion about Campaign metrics/results
- Have a strong communication skill (and a sense of humor)
- English language skills

Preferred Qualities.

- You've worked on video products
- Understanding of JavaScript & HTML & CSS
- Some SQL knowledge
